

Liberty Nature

Inspired outdoor spaces...

Architectural Porcelain stoneware, wood finish paver system 20mm thickness

Liberty Nature porcelain tiles are available in three contrasting colours with realistic and detailed effects, achieving a wood look finish porcelain tile in a collection especially designed for outdoor environments such as patios, balconies, seating areas, gardens and swimming pools.

The characteristics of the surface and colour found in the Liberty System are a perfect synthesis, with all the technical advantages of the Liberty porcelain tile system and a non-slip surface for maximum safety with the durability of a 20 mm thick porcelain tile.
